Pesticides Training

A workshop for extension officers

Allan Blair and Jack Roberston from the Department of Agriculture and Fisheries will provide an overview of pesticide groups and modes of action, before taking a closer look at pesticides of concern for the Great Barrier Reef catchment.

Other subjects to be covered:

- Integrated Pest Management strategies for sugar cane and coastal crops
- Pesticide labels
- Legal aspects of recommending a pesticide
- Application systems equipment and calibration.

Date: **Wednesday 11th December, 2019**

Time: **8.30am – 4.30pm**

Venue: **SRA Research Station, Brandon**

Lunch and other refreshments provided

RSVP to: Terri Buono, 3330 4509 or terri.buono@daf.qld.gov.au
